Deceuninck H1 2021 – Preliminary sales € 404m (+39.8%)

Based on preliminary and unaudited information, Deceuninck, the global designer and manufacturer of profiles for windows and doors, estimates that its H1 2021 sales will amount to € 404m compared to €289m in H1 2020 and € 312m in H1 2019. The main drivers for this strong sales growth in all regions have been higher volumes thanks to a strong residential construction market and price increases to mitigate the impact of higher raw material prices.

For the second half of the year we expect the same drivers to continue to support our business.

Final financial results will be published on 17 August 2021.
